

Outcome based SDP budget – Housing

Various parameters impacting Multi-dimensional Poverty Index (MPI) and Human Development Index (HDI) were analyzed for each of the parameters for 226 taluks of all 31 districts of the state with the objective of achieving 0 % MPI and enhancing HDI.

Based on the analysis, the following parameters were found to have high impact in achieving the outcomes in the following order:

Sl no	Parameters	Impact %
1	Housing (including Pucca Houses)	45.0
2	Individual Household Toilets	27.5
3	Clean Cooking Fuel	26.5

Based on the analysis, the minimum numbers as below are required to achieve 0% MPI are as follows:

Sl no	Requirement	Number	Unit Cost Rs Lakhs	Total amount (Rs Cr)	SDP Budget 2023-24 (Rs Crore)
1	Construction of houses	11,27,218	1.5	16908.27	500

Note: As per data lake calculations:

$$\text{MPI} = -(0.00180766 \times \% \text{ Households having housing}) + 0.0954919$$

Hence, as per formula if, 52.82% of current houseless households are provided housing, MPI = 0.

Talukwise details are annexed.
